### TO WHOM IT MAY CONCERN

Capt. Ahluwalia Singh, was contracted by the Maritime Authority of Jamaica (MAJ) to deliver training on the implementation of the International Ship and Port Facility Security Code (ISPS) to its staff and other maritime personnel in Jamaica and the Caribbean.

The MAJ is the maritime administration for Jamaica and is the focal for the International Maritime Organization (IMO).

Capt. Singh participated in the delivery of two (2) workshops for training over fifty (50) persons as Port Facility Security Officers (PFSOs), Ship and Company Security Officers (SSOs and CSOs) consistent with the requirements of the Code. These courses were approved by the MAJ and delivered in accordance with IMO model courses for the training of CSOs and SSOs.

The delivery of the course was of an exemplary standard, as Capt Singh's knowledge of the maritime security requirements and his extensive experience in their implementation brought to the participants the level of practical exposure necessary to carry out their responsibilities in this area. We therefore have no doubt that you will find him a knowledgeable and most effective instructor.

Yours sincerely,

Peter L. Brady  
Rear Admiral (Ret'd)  
**DIRECTOR GENERAL**
